DIGITAL SELF DEFENSE:
IGNITING CRITICAL THINKING THROUGH ONLINE SELF AND COMMUNITY ADVOCACY

PRESENTED BY:
SMART GEN SOCIETY

We know growing up in today's society is hard!
 In a world of digital dependency, we are connected 24/7 and sometimes it is hard to escape from the digital noise. We're here to help!

Amie Konwinski

KEYNOTE SPEAKER | CEO | VETERAN | VISIONARY

ABOUT AMIE

Amie Konwinski is the founder and CEO of Smart Gen Society, an Omaha-based nonprofit working to educate and inspire smart and confident girls, women, and families.

Amie brings 25 years' experience in computer engineering, military leadership, and parenting techniques to engage students, caregivers, and educators to be smart and safe on technology and social media.

Communication and Cooperation

With earlier access to technology and increasing digital-based anxieties, we'll inform you of the long-term impacts of our online activities. Let's empower one another to engage in real life!

Protecting Your Safety

Technology allows us to connect on so many levels. By igniting critical thinking skills, we will ensure appropriate measures are in place to protect your safety and privacy.

Ignite Critical Thinking

With thousands of applications and a growing number of social media platforms, sometimes our digital footprints can do more harm than good. We work to ensure students are creating and sharing content that will not hinder future successes.

Contact Smart Gen Society for more information or to set up a workshop at 402-505-3993 or contact@smartgensociety.org
