Emergency Contact Information (if blank, parent/guardian listed above will be used)

Name:_________________________________________ cell phone: (______)______________

Relationship to Athlete:________________________________

AUG 2016
Academic & Technical Expectations

- At all times the student-athlete will be passing all credits carried; not including Physical Education (monitored by the Athletic Director and the Supervisor of Instruction).
- The student-athlete must be passing shop at all times (monitored by the Athletic Director and the Supervisor of Instruction).
- The student-athlete cannot have more than four (4) unexcused absences per quarter (monitored by the Athletic Director and the Supervisor of Instruction).
- The student-athlete cannot have more than four (4) unexcused tardies to school or class per quarter (monitored by the Athletic Director and the Supervisor of Instruction).

Social, Behavioral & Civic Expectations

- A game suspension up to three (3) contests can be imposed if the student-athlete has received more than three (3) behavioral referrals per quarter.
- Student-athletes that are suspended are excluded from participating in two (2) games and must continue to attend practices and “sit-out” during game events.
- The student-athlete must be of moral character. That is to say, any student-athlete found responsible for illicit/illegal behavior, as determined by a review panel (Supervisor of Student Management, Athletic Director, Director of Guidance, and Coach) will be subject to suspension, up to and possibly including the whole season.
- Only student-athletes will be allowed bus transportation to games. Any student-athlete causing behavior problems while on the bus will be suspended for one game.
- All student-athletes must ride to and from all contest on bus transportation provided by the school. **NO EXCEPTIONS!**

This athletic policy is designed to be an addendum to the current student handbook.

CUMULATIVE EFFECTS OF REPEATED CONCUSSIONS

A three-year, follow-up study shows that athletes having a previous history of at least one concussion are at an increased risk for further concussions. As the number of concussions increase, so do the risk for future injuries (Guskiewicz et al, 2003). It has also been shown that repeated concussions have been linked to longer recovery periods. Highlighting the importance of making sure athletes are symptom free prior to returning to competition from a previous MHI, research has shown that 1 in 15 athletes with a concussion have recurring concussions within 7-10 days from the first concussion. Because of these findings and the potential for complications resulting from MHIs, it is recommended that athletes sustaining more than one concussion should be referred for follow-up evaluation and assessment to determine any residual effects that might preclude participation in contact or collision sports. Cases of individuals suffering permanent brain damage from multiple concussions have been reported but no consensus on how many concussions are too many or what leads to that permanent damage.

MEDICAL CLEARANCE TO RETURN TO PARTICIPATION AFTER HEAD INJURY

There is unanimous agreement within the medical community that NO athlete who has signs and symptoms of post concussion should be returned to action. There is also unanimity that there is increased risk of significant damage from a concussion for a period of time after a preceding concussion and from cumulative damage of multiple head injuries. The more concussions an individual has, the greater is the risk of having additional concussions. The exact period of increased vulnerability or the number of concussions that is “too many” has not been determined. Traditionally, physicians have advised athletes not to return to action until they have been free of symptoms for a minimum of a week. (McCrea et al, 2003). Now, rather that discuss a length of time to be free of symptoms, guidelines suggest using the gradual return-to-play protocol shown above while monitoring the athlete for symptoms. This could be longer or shorter than a week. Research, utilizing some of the testing instruments mentioned above, is now revealing subtle residual effects of concussion not found by traditional evaluation. These identifiable deficits frequently persist after the obvious signs of concussion are gone and appear to have relevance to whether an athlete can return to action with relative safety.

Source: National Federation of State High School Associations
Endorsed by the RI Interscholastic League Sports Medicine Advisory Comm.
The undersigned, being an adult prospective student-athlete or parent/legal guardian of the undersigned minor prospective student-athlete, hereby acknowledge that said student seeks to participate in a student sports program sanctioned by the Rhode Island Interscholastic League ("RIIL"). The undersigned specifically assert that the student-athlete will comply with the rules and regulations of the RIIL; the undersigned hereby authorize the release of information and reports concerning the academic standing, medical condition, financial aid, attendance, residency, and disciplinary record of the undersigned student to the RIIL for the purpose of enforcing the rules and regulations of the League; that they are aware that athletic participation requires physical fitness; that the student possesses such fitness; and that some risk of serious injury and even death is involved in sports participation. For sports involving helmets, we acknowledge the following WARNING: Do not use any helmet to butt, ram or spear an opposing player. This can result in severe head, brain or neck injury, paralysis or death to you and possible injury to your opponent. There is a risk these injuries may also occur as a result of accidental contact without intent to butt, ram or spear. NO HELMET CAN PREVENT ALL SUCH INJURIES.

Now, therefore, pursuant to the Rhode Island General Laws § 7-6-9 and § 9-1-48, the undersigned, in consideration of participation in a RIIL sanctioned sports program, herein grant to the RIIL, its officers, directors, trustees, volunteers, participants, event sponsors, agents (to include, but not be limited to, the local school committee or its parochial or private equivalent), servants and employees, a waiver of liability as regards practicing for or participating in, in any sports program sanctioned by the RIIL. The undersigned specifically acknowledge that a risk of injury or death exists and assume said risk with respect to practicing for or participating in any contest or exhibition of an athletic or sports matter sanctioned by the RIIL.

In compliance with the Rhode Island General Laws § 9-1-28.1 and all other applicable laws and regulations, the undersigned, in consideration of participation in a RIIL sports program, herein grant to the RIIL, its officers, directors, trustees, volunteers, participants, event sponsors agents (to include, but not be limited to, the local school committee or its parochial or private equivalent), servants and employees, and assigns the absolute right and permission to at any time and by any method record student's name, voice, and likeness and to utilize or assign the use of the student's name, voice, and likeness in any manner of media whatsoever, known or unknown at this time, for purposes of athletic or academic award, publicity, promotion, exhibit, display, trade, announcement, action or advertising, of any kind without restriction.

(This form must be completed by all students, regardless of grade, intending to participate in any Rhode Island Interscholastic League sport after 1 Aug. 2014. All minor students must sign and have a parent or legal guardian also sign. All forms are to be notarized and returned to the League office. Failure of a school to provide a duly executed form will cause the athlete to be declared ineligible.)

Physical Examination Requirements for Children Entering Davies

In accordance with the Rhode Island Department of Health Rules and Regulations (see 8.1-8.2) is as follows:

- 8.1-1 Every student who has not been previously enrolled in a public or non-public school in this state shall have a medical history and physical examination completed. This examination shall be conducted in the twelve (12) months preceding the date of school entry, but if not, it shall be completed within six months of school entry.

- Said general health examination shall be a complete, age appropriate history and physical examination, assessing the health and well-being of the child and evaluating any challenges to the child’s success in school and school-related activities.

- These general health examinations shall be conducted by the student’s family physician, a physician’s assistant under the physician’s supervision, or a certified nurse practitioner who may collaborate with the physician.

- Each school system may require additional health examinations, in order to ensure the mental and physical health of each child to participate in classroom, athletic, or special activities sponsored or conducted by the school.

Student-Athletes

1. The Davies School Department policy requires student-athletes to have a physical examination prior to participation in athletic competition. This examination is valid for one (1) year and must be performed by the student-athlete’s primary care provider.

2. Please have your primary care provider complete the physical form and return the original copy to the school nurse/teacher.
