Why Choose Davies?

- Choose from career and technical areas in emerging industries.
- Join a sports team or participate in after-school activities ranging from robotics competitions to multimedia production.
- Graduate with industry certifications to begin your career immediately.
- Graduate career ready with an employable skill set. If you work while attending college, some employers will even contribute to your education or training costs.
- Discover your passion and prepare yourself for success, no matter your path.

Business Partnerships

Do you learn better by doing? Actual hands-on experience is important at Davies. Job shadows and paid/unpaid internships give students the chance to learn new skills and explore new work places. Davies students can participate in work-based learning opportunities at well-known companies and colleges -- like Electric Boat, Chartwells, CVS, Amgen, NEIT, JWU, CCRI, and URI. Students who participate leave Davies not only armed with technical training, but with 21st century work-readiness skills.

Businesses interested in working with Davies can reach out to the Office of Workforce Development.

How to apply to Davies:

During your 8th-grade year of school
- Attend the open house in November.
- Register for the required entrance/placement exam.
- Sit and take the exam.
- Await provisional acceptance.
- Finish 8th grade in good standing.
- Submit all required paperwork.

DaviesTech.org/admissions

Statewide busing is provided to residents of Region 3. Learn more at DaviesTech.org/RIDEBusing.

The William M. Davies, Jr. Career & Technical High School does not discriminate on the basis of age, sex, race, religion, national origin, color, sexual orientation, gender identity, or disability.
The Davies Total Experience

Students take four years of Math and English, three years of Science and Social Studies, with room for students to explore interests through electives. Some play sports, like football, baseball, basketball, cross-country, or soccer. Others join after-school activities, like Yearbook, SkillsUSA, Student Council, Making Caring Common, Multimedia Production, or Robotics. Prepare for college while in high school with Advance Placements courses, Pre-AP, Dual/Concurrent Enrollment, or CCRI’s Running Start Program. Students also work with their dedicated Guidance Counselor to help make decisions on attending college or receiving further technical training after graduation.

A School with Valuable Extras

Technology is everywhere at Davies! Each student is issued a Chromebook. Computers are in every classroom and students can learn new skills in our labs - computer assisted design and manufacturing (CAD/CAM), multimedia, electrocardiograms and health tools, bioscience, electronics, and more. Our Office of Workforce Development teaches students how to apply the skills they learn to their future, through resume preparation, interview techniques, and researching job opportunities. Attending business and college-sponsored activities, tours, and fairs help them learn about life after Davies.

Get Involved with Roll-Up-Your-Sleeves Technical Education

**Automotive Careers**
- Auto Mechanics, Repair
- Re-Conditioning, Refinishing
- Customer Service
- ASE Certification
- Collision, Repair
- I-Car Certification

**Biomanufacturing Technology**
- Aseptic Laboratory Skills
- Forensics
- Cell Culture Techniques
- Water Quality Analysis
- NOCTI Certification - Biotechnology

**Education/Childcare**
- Teacher Assistant Skills
- Paraprofessional Certification
- OSHA10 Certification
- Child & Infant First Aid/CPR/AED Certification

**Electrical & Renewable Energy**
- Residential, Commercial Wiring
- Alarm, Security Systems
- Blueprint Reading
- Photo-voltaics
- Motor Controls
- Programmable Logic Controllers (PLC’s)
- NCCER Certification, Including Modules in "Green" Energy and Solar Power

**Graphics & Interactive Media**
- Advertising and Marketing
- Layout and Design
- Printing and Production
- Web Design
- Adobe Certified Associate
- PrintedED Certification
